**PROSPECTUS- 2024 - 2025
School Of Nursing
G.B. Pant Hospital, Port Blair**

1. Preface

School of Nursing, G.B. Pant Hospital, Port Blair is a Government Institution under Directorate of Health Services, Andaman & Nicobar Administration, Port Blair conducting General Nursing and Midwifery Course. The School was established in the year November 2001, and is attached to G.B. Pant Hospital functioning in its old O.P.D. premises.

2. History and Development

G. B. Pant Hospital: During 1958-60 three damaged wings of Cellular Jail was demolished and Construction of G. B. Pant Hospital started. G. B. Pant Hospital was formerly inaugurated by Dr. Zakir Hussain, the Vice President of India on 16th August 1966. It is a 500 bedded referral hospital equipped with various modern facilities.

Our Focus

(a) Profile

The School is affiliated to Indian Nursing Council (INC), New Delhi and School Code No. is 0102001. Examinations are conducted by Board of Nursing Education of nurses' league of CMAI (SIB) Bangalore. The School is recognized by the Tamil Nadu Nurses & Midwives Council, Chennai and the authority for issuing registration to the successful candidate.

(b) MISSION

“SERVICE TO MANKIND IS SERVICE TO GOD”

(c) VISION

- To provide educational and Medical service to the poor and needy persons of the society. To ease out the scarcity of qualified and well trained nurses.
- To meet the health needs of the society.

(d) Future Plan

It is proposed to upgrade the School of Nursing into College of Nursing in near future.

3. PHILOSOPHY

We believe that the basic course in Nursing should prepare nurse for first level positions in nursing both in the hospital and in the community. Our concept of nursing is based on the definition of Nursing, that it is the unique function of the nurse which is “to assist the individual, sick or well, in the performance of those activities contributing to health or to its recovery (or to peaceful death) that he would perform unaided if he had the necessary strength, will or knowledge. And to do this in such a way as to help him gain independence as rapidly as possible.”

We recognize that nursing is a profession which is influenced by advances in science and technology.

Since the time of FLORENCE NIGHTINGALE, who wrote in 1858, that the real goal of Nursing was “to put the patient in the best condition for Nature to act upon him. “Nursing leaders have defined Nursing as both an art and Science.

Our School of Nursing believes in integrating, Education, Scientific and Nursing skills to prepare our students not only to achieve the high standards of Nursing but also to become a better citizen who would be able to give the society their best services.

The Institution perceive to prepare the Nursing Students in such a manner that they become the torch bearers to realize the goals of our National health policies as well as regional health goals and be in imparting care in hospital as well as community.

Apart from giving them the best and advanced theoretical knowledge, the institution would strive to provide the students in depth clinical and community field experiences and also help in their total personality development.

Lastly but not the least the aim of the School of Nursing is to pursue and achieve high standards of Nursing which would inculcate a sense of achievement among the students and become the pride of the Islands.

4. PURPOSE

The purpose of the General Nursing Programme is to prepare General Nurse who will function as member of the health team beginning with competencies for first level position in both hospital and community.

The programme is geared to the health needs of the Country, the Community and the individual, and it will serve as a basis for advanced study and specialization in Nursing, it will assist nurses in their personal and professional development so that they may make their maximum contribution to the society as individual citizens and nurses.

5. GENERAL OBJECTIVES OF NURSING SCHOOL

The nurses completing the General Nursing Course from this School will be accomplished with following qualities.

a) CLINICAL KNOWLEDGE, JUDGMENT AND CLINICAL COMPETENCY:

- To observe and interact with the patients.
- To understand the problems of the patient and try to solve them.
- Students to gain the best theoretical and technical Nursing skills to provide better patient care.
- To evaluate the level of improvement in the patients.
- Provide effective Preventive, Promotive, Curative as well as rehabilitative Nursing care.

b) KNOWLEDGE:

Integrate scientific principles in all Nursing Care Activities as well as to educate students about recent advancement in the fields of Medical and Nursing Care.

c) SKILL IN HUMAN RELATIONS:

- Enabled the Nursing Students to understand the background of each patient – Cultural, religions, racial, economic, and educational and recognize the health knowledge problems and habits influenced by these different backgrounds. Help the Nursing Students to adopt Nursing care and health teaching as per the expectations of the patient.
- Co-operate and interact with other health team Members to achieve the set goals of health care delivery system.
- Encourage leadership skills in working with the health team, Community and develop commitment towards profession and develop professional attitude and behaviours.
- Gain knowledge about the health problems or the Community and impart health education and utilize the available resources in the society towards solving the problem.

d) REALIZATION OF THE PROFESSIONAL RESPONSIBILITY:

- Awareness among the students about belonging to the professional organization.
- To bring about a sense of pride and uphold standards of the Nursing Profession.

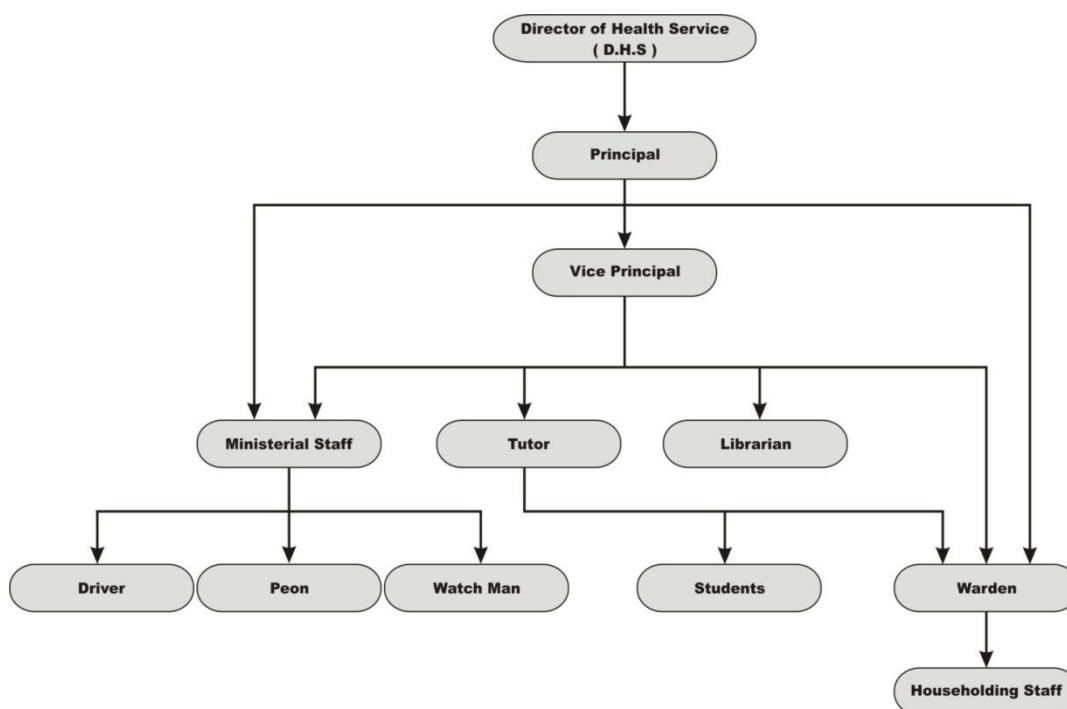

e) ENCOURAGE RESEARCH:

- Encourage self-awareness and self-evaluation.
- Promote Research activities in Nursing Care field.
- Bring about authentic conclusions and improvement in Nursing Care through knowledge and experience.
